Technic Inc. Appoints Bruno Kiski as Senior R&D Engineer / Imaging Products

Plainview, NY, USA – Technic Inc. is pleased to announce the appointment of Bruno Kiski as Senior R&D Engineer / Imaging Products. In this global position, Bruno will focus on all aspects of formulation research and applications engineering of Technic imaging products to the flexible PWB market. Bruno will work closely with Technic teams in regional technical service, new product development, and manufacturing engineering.

Bruno brings close to a decade of experience in developing new photoimageable solder masks/dielectrics, field technical support, and most recently worked in manufacturing engineering and quality, adding a welcome dimension to our product development team.

“With many years of experience in imaging R&D, coupled with a manufacturing engineering mindset, Bruno has the skills and experience to provide a valuable contribution to our fast growing imaging products platform.”

Tom Horigome – Director / Imaging Products
