Technic Engineered Powders Division Appoints Jana Hedges Flake Development Scientist

Woonsocket, RI USA - Technic Engineered Powders Division is pleased to announce the employment of Jana Hedges as Flake Development Scientist. Ms. Hedges' responsibilities include leading silver flake research projects as assigned, assisting with other research projects, and overseeing application testing as required.

Ms. Hedges graduated from Stonehill College as an NFS S-Stem Scholar with a Bachelor's degree in Chemistry and minor in Physics. Her focus was Physical Chemistry with thesis research based on characterizing Self-Assembled Monolayers (SAMs) of conducting functional organic layer formed by adsorption on Highly Oriented Pyrolytic Graphite (HOPG) and Gold for sensing application. Jana's technical experience from her former employer includes thermoset elastomeric materials, where she worked closely with automotive and aerospace standards and requirements with the ability to manipulate physical and rheological properties to meet application performance. She also designed compounds using Carbon based conductive powders such as graphene and nanotubes for thermal and shielding applications.

"We are very excited to welcome Jana. She will provide a fresh new point of view to Technic's Engineered Powders Division."

*Jim Frick – Global Sales & Marketing Director
Technic Engineered Powders*

About Technic

Technic Inc. is a Rhode Island based corporation with over 950 employees worldwide. For 75 years, Technic has been a global supplier of specialty chemicals, custom finishing equipment, engineered powders, and analytical control systems to the semiconductor, electronic component, printed circuit board, industrial finishing, and decorative industries. Technic is also a major supplier of engineered metal powders to the solar industry.
