Technic Italgavano Opens New Laboratory Facility to service expanding customer base

Lodi Vecchio, Italy – Technic Italgavano has announced the completion of a 300 sq.m., state-of-the-art laboratory in Lodi Vecchio, just outside of Milan. The newly completed facility will support the company's increased customer service demands with expanded quality control capabilities, applications engineering and analysis, as well as ongoing research and development.

A reception to mark the official opening of the facility was held on July 12th, 2017. Invitations to the event were extended to local customers to tour the facility and meet with Technic chemists, support staff, administrators and sales personnel.

“Quality products and exceptional customer service have long been the guiding principles of our operations. Our new facility marks a significant investment toward meeting the growing demand for Technic products throughout the region. Greater efficiencies and the expansion of services will further support the ongoing commitment to our customers.”

- *Giorgio Stabilini, General Manager*

About Technic Italgavano
